EAGLE-I LITE
Plug & Play Alarm System

Gone are the days when setting up a security alarm system was tedious and time consuming.

The Eagle-I Lite is a Plug & Play alarm system that literally needs no installation.

Simply plug it in, install the sensors and you are secured in a moment. What's more, it's powered

by AC 100V ~ 240V and needs no wiring.

Adding more teeth to security, users can install multiple wireless sirens indoor at different places

to deter the illegal intruders. The sirens can be

wirelessly connected with the control panel to

build a system. The wireless siren can also be

used as a control panel independently.

So, are you plugged in?

Siren-cum-strobe

Wireless
Remote Control

Wireless Door/
Window Contact

A security system is meant to relieve you of all worries. That's just what Eagle-I Lite Plug & Play alarm system does.

The Wireless Door/Window Contact can be installed on all the objects that open and close eg. Doors, Drawers, Wardrobes, Cabinets etc.

Ensuring safety that's also convenient,

the remote control enables you to turn the alarm system ON and OFF before entering the home or after exiting. Plus, the remote is compact, portable and designed to fit on a keychain, in the pocket or in a purse. That's not all. The alarm system also supports up to 40 accessories.
