

# FORTE 40

Compact with attractive aesthetics and a sleek LCD display, Godrej Forte 40 is embedded with a digital locking system. Choose a secret password between 3 to 6 digits and you are all set to keep your valuables safe. The safe is equipped with motorised shooting bolts for added protection. The Safe comes with a low battery indicator that gives an early warning indication so that you can replace the battery well in advance. Should the battery run low, non-volatile memory prevents password erasure. Other security features include mechanical override key in case you forget your password and an autofreeze functionality that comes into play when the wrong password is entered four times in a row. Made of mild steel, Forte 40 is not just a reliable safe, it is also designed to complement the interiors of your home.

## SPECIAL FEATURES

**MOTORISED SHOOTING BOLTS**  
Added security makes breaking into the safe even harder

**AUTOMATIC FREEZE**  
The safe freezes to prevent a break-in after 4 consecutive wrong attempts

**MECHANICAL OVERRIDE KEY**  
Key override system in case you forget your password

## OTHER FEATURES
